OK On Budget Is Expected Today

By JAMES RENNEISEN
FRANKFORT, Ky. (UP) — The House Appropriations Committee meets today to give a favorable committee report to Gov. Bert T. Combs' \$1.1 billion appropriations bill.

This first step in the legislative process will enable the bill to be given a first reading in the House of Representatives when it con-

venes at 11 a. m. this afternoon, so the bill will be ready for passage by the House on Thursday.

The House and Senate both held short routine sessions Monday night, mainly to complete the introduction of the first batch of administration legislation in addition to two important tax measures affecting members of the armed forces in Kentucky.

The Senate completed legislative action on the resolution providing for the new employees of the legislature and the House Appropriations Committee chairman called a meeting of the group to take action on the governor's budget bill at noon today.

The Senate passed with virtuality no debate a House resolution appropriating \$1,750 a day in emergency funds to the Legislative Research Commission. The money goes primarily to pay clerical help of the General Assembly.

The only objection, and it was short-lived, came from Sen. Cap Gardner, D-Owensboro. Gardner, considered a supporter of former Gov. A. B. Chandler, asked if it wouldn't be more appropriate for the money for the commission to be taken out of the governor's emergency fund.

He said he understood the fund still contained a half million dollars.

But Gardner withdrew his objection after a reminder from Sen. M. J. Duffy Jr., D-Louisville. Duffy told him that if the legislature were to take the money from the governor's fund it would mean that the body was placing its employees under Combs' control.

The bill passed by a 38-0 vote and now goes to Combs for his signature.

A resolution would allow the legislature to investigate any phase of state government Monday night began what is expected to be a speedy trip through the Senate.

The resolution sets up a joint committee of the House and Senate on state government operations. The measure provides for five committee members from the House and four from the Senate.

Expected to come under the scrutiny of the group is a charge made by Sen. Tom Raney, D-Pikeville, that he was offered a bribe before the session began to vote with supporters of Chandler in the Senate reorganization.

He told the Pike County grand jury which is investigating the charge that he was offered \$5,000 to cast his vote with the supporters of the former governor.

Raney never has made public the name of the man he said made the bribe attempt.

The measure setting up the investigative committee is expected to be passed by the Senate Wednesday after a second reading this afternoon. The resolution already has been passed by the House.

The administration measures introduced by House Majority Leader R. F. Maloney, D-Fayette, and Sen. Majority Leader James C. Ware, D-Covington, generally were of minor importance.

Ware introduced the administration's version of a new absentee voting law, probably the version that eventually will become law. The bill would limit absentee voting to members of the armed forces, federal employees, and students absent from their home counties on election day.

Other Ware-sponsored bills would authorize the establishment of sanitation districts in any county of the state; would provide for a dentist member of city-county boards of health, and would limit the amount of certain narcotics that may be sold to a single purchaser in any one day.

Maloney bills introduced in the House would authorize the state Department of Revenue to assign members to taxpayers would allow elected officials of third to fifth class cities to be removed by action of the City Council for misconduct or malfeasance and would provide for at-large election of soil conservation district members.

BULLETIN

FRANKFORT, Ky. (UP) — Gov. Bert T. Combs' \$1.1 billion biennial appropriations bill was reported by the House Appropriations Committee today and was given a first reading on the floor of the House.

The bill will be ready for passage in the House before adjournment for the weekend on Thursday. The House adjourned this afternoon until 1 p. m. tomorrow.

South central and western Kentucky — Sunny and colder today, high 30 to 35. Fair and colder to night, low 10 west, 15 south. Wednesday partly cloudy and colder. Temperatures at 5 a. m. (EST): Louisville 24, Lexington 27, Covington 22, Bowling Green 23, London 28, Hopkinsville 19, Evansville 18, Huntington, W. Va. 30.

Elisha C. Toon
Elisha C. Toon Is Airman Of Month At Luke AF Base

Mr. and Mrs. C. E. Erwin have been notified by Lt. Col. G. E. Reynolds that their son Elisha C. Toon has been selected as the outstanding airman of the month at Luke Air Force Base, Arizona.

The selection was made by a board of Senior Officers of Luke Air Force Base. Toon, 21, is a member of each Squadron on the base. He was based on each individual nominee for his high moral character, effectiveness in his duty performance and overall value to the base.

He won over approximately 1300 other airmen.

Lt. Col. Reynolds said that Toon possesses all the qualities required of an outstanding airman and will progress far in his military career.

"It is a pleasure to have an airman of his quality in my command," Lt. Col. Reynolds concluded.

Mr. and Mrs. Erwin live on Murray route four.

New Cold Wave Stabs Dixie

By United Press International
A new cold wave stabbed through the Midwest into Dixie today and heavy rains pelted the Northeast.

The weather death toll for the week climbed to 36. At least two men suffered fatal heart attacks while shoveling snow in Illinois. An Arkansas family of 10 was found burned to death Monday.

The cold dropped temperatures as much as 30 degrees in 24 hours as far south as Louisiana. Montana's mountain valleys reported temperatures of 30 degrees below zero early today. The mercury fell to 25 below at Bozeman, Montana. Freezing temperatures reached deep into Texas.

Minneapolis, Minn., reported temperatures in the 10-Below-Zero range early today and Joliet, Ill., had a 5-Below reading. The temperature dropped to near zero in Ohio.

Light snow accompanied the cold in parts of South Dakota, Minnesota and Nebraska.

Heavy rains occurred from Ohio to Maine, where Bangor had more than an inch of rainfall in six hours Monday night. The inch of rain wet the coal supply of the Cleveland municipal light plant, cutting down power production and leaving thousands of customers without electricity for up to 50 minutes.

Light snow accompanied the cold in parts of South Dakota, Minnesota and Nebraska.

Heavy rains occurred from Ohio to Maine, where Bangor had more than an inch of rainfall in six hours Monday night. The inch of rain wet the coal supply of the Cleveland municipal light plant, cutting down power production and leaving thousands of customers without electricity for up to 50 minutes.

Granddaughter Of Mrs. Henry Gets First Lady Thrill

As President Kennedy and other capital guests left the House Chamber following the President's State of the Union message Thursday night, Mrs. Henry's granddaughter, 12-year-old Edwina, dashed down a flight of steps in the front row of the presidential gallery.

Plunging down in a just-vested chair, she cried, "oh, I'm sitting in Jackie Kennedy's seat, and it's still warm."

She described her experience, hearing the President's speech, the First Lady's beige coat with six big black buttons, the close-fitting black dress, and the black hair, as just "fabulous."

Edwina is the daughter of Hon. doorman Preston Guest. The young Miss is the granddaughter of Mrs. Emmett Henry of Murray route three, a cousin of Gary Ballard and a niece of Mrs. Mark Thomason, all of Murray route three.

Construction Of Schools Is At An All Time High

FRANKFORT, Ky. (UP) — State Superintendent of Public Instruction Wendell P. Butler told the General Assembly Monday that school construction reached an all time high in Kentucky during the 1960-61 fiscal year.

The record added that it cost \$188 million to operate the state public school system during the past fiscal year.

It showed that a total of \$60.3 million was spent on new school buildings, acquisition of school sites, addition to existing schools and equipment during the past biennium.

Butler pointed out that construction of new buildings more than doubled in 1960-1961, compared to the previous fiscal year, principally as a result of the influx of new monies appropriated during the 1960 session of the General Assembly.

Ten Years Ago Today

Ledger and Times File

Dr. Hal E. Houston, age 40, died last night at the Barnes Hospital in St. Louis from burns which he suffered in the fire that destroyed his home on January 2nd and took the life of his wife.

Captain V. A. Bean of Louisville, state coordinator of vocational education, Fireman's Training, is in Murray this week conducting a fireman's school each evening, according to Murray Fire Chief W. O. Spencer.

Dr. H. C. Chiles, pastor of the First Baptist Church, will address chapel exercises Wednesday at the Fifth Annual Kentucky Baptist Evangelistic Conference in Louisville.

After exhausting a panel of eighty-six names and getting only eight prospective jurors, a panel of fifty names was drawn from Graves County before completing a jury for the Earl Brandon murder trial.

NOW YOU KNOW

By United Press International
The gipsy moth was brought to the United States from Europe

for experimental purposes in 1889. However, it escaped from confinement, multiplied slowly and eventually became a woodland and orchard pest in New England.

DROPPED DEAD—Albert Davidson, 66, goes cavorting (upper right) with two other "L Street Brownies" in the Boston surf in 25-degree weather, an activity in which he has participated since 1907. Davidson drops on the beach (lower) and his pals continue to cavort, not realizing Davidson is dead. The pals (upper) are Samuel Stein, 79, and (middle), Ernest Melvin, 78.

SCIENCE 'DISHES' IT UP—A nine-ton, dish-shaped antenna, the ADVENT, rests on the ground at Fort Dix, N. J., before being hoisted to its three-story pedestal (left). The latter contains a rotation-elevation mount for directing the antenna. Project ADVENT is part of a U.S. Defense Department research and development program. Involved is the feasibility of a reliable military communications system for instantly relaying messages anywhere in the world through active repeater satellites which will hover in a 22,300-mile-high stationary orbit over the equator.

Sports Parade

By OSCAR FRALEY
United Press International
MIAMI (UPI) — Fearless Fraley's facts and figures:

The large collection of boxing insiders in Miami don't bother to whisper — but say it out loud — that Blinky Palermo still calls the shots for Sonny Liston, the pious puncher who points to his separation from the sinners as the reason for the flow should get a crack at Floyd Patterson's heavyweight crown.

"Unless some real boxing man noted for his honesty legally buys up Liston's contract and thereby proves Liston is 'clean,' he should never be given a title shot despite all this phony white-washing," said one. "Skeptics may question whether 'such a man is now alive' but there still are a lot of good apples in the boxing barrel."

Meanwhile, to the reports that Miami may be in line to stage such a Patterson-Liston bout, it and when it comes off, there is a noticeable coolness which has nothing to do with the weather.

The last promotional group, which put on the Patterson return with Ingemar Johansson, scattered too many unpaid bills behind.

Ralph Hoak can hardly wait for the opening of the New York Yankees' advance training camp at Fort Lauderdale on Feb. 5. The Yankee skipper, who won the world championship in his freshman year, hopes to find the answer to two major problems before the full squad of regulars report.

Bob Turley, who underwent surgery on his pitching arm last season, will report with the ad-

vance group for an important test of his soup-bone. Hoak during the advance period also will inspect Tom Fresh, who hit 315 at Richmond, and Phil Linz, who hit 340 won the Texas League batting title. They're prime candidates to fill the shortstop vacancy created when Tony Kubek went into service.

Includes "Name" Players

The Yank advance guard also will include a trio of "name" players: Charlie Keller, son of the old "King Kong," 19-year-old Mike Hegan, son of coach Jim Hegan, and Jake Gibbs, the former Mississippi quarterback.

You've got to call Roy McAdams, owner of the Dania jai-alai palace, a self-made man. The one-time Youngstown, Ohio, steel puffer has \$4 million invested in his plus Spanish handball palace and refused an offer of \$6 million cash.

So you want a gentleman's snailmen, or a butler to bottle for you?

How about Thomas Cronin, the dignified drink dispenser at Dania? The one-time butler for Princess Margaret reveals that come April he'd like to become employed with a "good American family." You can contact him care of Dania, Fla. jai-alai and, aside from salary, "there's the wife and accommodations, you know."

Wonder if Tony Galento's interest?

INDOOR SKIING

NEW YORK (UPI) — Indoor skiing may become a new popular fad. Schine Enterprises plans to set up 1,000 such centers over the next three years. Thick nylon pile, mounted on rollers will be used to simulate snow slopes.

Weekend Sports Summary

Saturday
by United Press International
ARCADIA, Calif. — Four-and-twenty scored a three-length victory in the \$34,400 San Fernando Stakes at Santa Anita.

SYDNEY, Australia — Darlene Hard of Montebello, Calif., reached the mixed doubles final of the Australian tennis championships after losing out in the women's singles and doubles.

MIAMI BEACH, Fla. — Shirley Gamms of Chicago and Dick Weber of St. Louis won the women's and men's titles in the All-Star bowling tournament.

BOSTON — Frank Budd, world's sprint champion from Villanova, won the 30-yard dash in 5.5 seconds at the Knights of Columbus track meet.

Sunday
LOS ANGELES — The West beat the East, 31-30, in the 12th annual National Football League Pro-Bowl game.

CLEVELAND — The Kansas City Steers defeated the Cleveland Pipers, 120-104, to win the first half American Basketball League playoffs two games to one.

CHICAGO — Track coaches approved a separate championship meet by the new NCAA-sponsored federation, presumably in competition with AAU meets.

NEW YORK — NBA middleweight champion Gene Fullmer received the Edward J. Neil Memorial Award as "fighter of the year" at the annual Boxing Writers' Association dinner.

SAN DIEGO, Calif. — Tommy Jacobs beat Johnny Pott on the first playoff hole to win the San Diego Open golf tournament. Each had finished regulation play with a 271.

Ohio State Rides Majestically As Number One College Basketball Team In UPI Ratings

By JOE SARGIS
United Press International
NEW YORK (UPI) — Ohio State rode on majestically today as the nation's No. 1 major college basketball team in the United Press International coaches ratings while a general scramble broke out for the other nine places among the top 10.

The Buckeyes, the only major unbeaten team in the nation with a 12-0 record for the first half of the season, again were the top pick of 34 of the 35 coaches who comprise the UPI rating board. Again, one coach failed to name them No. 1, giving that designation instead to Kentucky, which continued its advance through the top 10 to gain the No. 3 spot this week slipping Cincinnati.

The Bearcats, second every week of the season, held on to

that spot, but their 74-point lead over Duke which defeated Cincinnati a week ago dwindled to just eight last week, vaulted from 25 to 23 as they picked up a total of 236 points to Kentucky's 261. Ohio State had 349 points, one short of a perfect score.

Kansas State, another team on the move, advanced one notch, as did Kentucky, to gain the No. 4 spot, while Southern California, after a week ago, slipped to fifth following a weekend split with Washington.

Duquesne also advanced one spot, from seventh to sixth, Bradley, the Missouri Valley Confer-

ence team, dropped to ninth, and Oregon State and Wichita shared the No. 10 designation.

Wichita advanced from 14th to the co-10th spot, while Oregon State, despite adding two more victories for a fine 11-1 record, dropped one position from last week.

The hardest hit, though, was West Virginia which dropped out of the top 10 to No. 12.

Above charts, provided by the Safe Winter Driving League, illustrate test results by National Safety Council's Committee on Winter Driving Hazards. For each "braking distance" above you must add 22 feet, which is distance traveled during average "reaction time" needed to think and get your foot on brake after seeing a reason to stop. Skidding and reduced visibility are the major added hazards of winter. Can you see and stop in time? Are your windshield wiper blades giving clear, streak-free visibility? Does your defroster work?

THE LEDGER & TIMES — MURRAY, KENTUCKY

PAGE THREE

ROBOT TRAIN—Motorman Joseph A. Elender takes it easy in the New York Transit Authority's new "crewless" subway train, automated for the Grand Central-Times Square cross-town shuttle. Note the empty motorman's cab (left, photo right) as it pulls into Times Square. There will be a motorman and technician aboard for six months—testing.

SETTING NEW SEA FACE—Ready for keel-laying ceremonies at the Quincy, Mass., yards of the Bethlehem Steel Company is the American Courier, first of six 11,400-DWT cargo vessels built for the United States Lines. All ships will make 30 knots and be fastest cargo carriers in the North Atlantic.

1936 Bought Maytag

You can see that the last 25 years have been kind to Mrs. Roy Neely of Newman, Georgia. As kind to her as her remarkable Maytag.

Over the years, she's developed a real affection for it. And no wonder. She bought this Maytag as a bride and the very first time it needed repairs was long after she had become a grandmother.

Nor was her Maytag coddled. "For six years, three families used it besides ourselves," wrote Mrs. Neely.

She concluded her complimentary letter to "Mr. Maytag" by noting that "in this day and age it was nice to be able to get a new part for a machine that old." (In our reply, we couldn't resist telling Mrs. Neely that the new part is actually better than the old.)

Two things only, remain to be said: No, we don't expect every Maytag we build to last as long as Mrs. Neely's. Yes, we do every-

1961 Bought new part

thing we can to build them so they will.

Many long years from now, parts (if needed) will be available for your new Maytag Automatic with all these features—Automatic Bleach Dispenser ends bleaching mistakes, Lint-Filter Agitator ends lint problems, Automatic Water Level Control saves money, Safety Lid stops action in seconds when opened, and a Zinc-coated Steel Cabinet protects against rust!

Questions & Answers On Civil Defense

Question: Would you please define some of the terms used in discussing civil defense problems. Some of them puzzle me.

Answer: A-Bomb and H-Bomb—An Atomic bomb explodes through the fission or splitting of atomic nuclei. A hydrogen bomb explodes through the fusion of atomic nuclei and is often called a thermonuclear weapon because of the tremendous heat needed to start its process.

Kiloton—The explosive power of 1,000 tons of TNT.

Megaton—The explosive power of one million tons of TNT.

Ground Zero—The surface point at or above which a nuclear weapon explodes.

Fireball—The large, swiftly expanding sphere of hot gases, producing brilliant light and intense heat, which is the first manifestation of a nuclear explosion. After about a minute it fades into the atmosphere.

Blast Wave or Shock Wave—The almost solid wall of air pressure produced by a nuclear explosion. Beginning at over 2,000 miles per hour, its speed decreases rapidly with distance.

Blast Wind—The wind gust that travels with the blast wave, and which may be many times the force of a hurricane.

Röntgen—A unit for measuring radiation.

Geiger Counter—An instrument which counts Röntgens, i. e. measures radiation.

Initial or Prompt Radiation—The outburst of gamma rays and neutrons from a nuclear explosion during the first minute after the detonation.

Fallout—The radioactive debris and dust from a nuclear explosion which eventually falls to earth. A nuclear explosion high in the air causes little fallout. The same explosion high in the air causes little fallout. The same explosion at ground level would hurl great amounts of earth and other matter into the atmosphere, all of which would eventually return to earth as fallout.

Fallout Radiation—The radiation emitted by fallout. Each particle of fallout gives off rays resembling X-rays. They penetrate like X-rays and make necessary the protection afforded by fallout shelters.

Early Fallout—The fallout particles that return to earth during the first day after a nuclear explosion. Generally speaking, the greater the distance from ground zero the longer it will be before fallout strikes the earth. Wind and weather, of course, affect the fallout pattern over great distances.

Contamination—This is a widely misunderstood word used in civil defense. It simply means that radioactive dust has settled on something. That something, whether animal, vegetable or mineral, does not in turn become radioactive. The contaminating dust may be washed off with water and the food safely eaten afterwards.

Radiation sickness—Illness resulting from radiation burns. It is not contagious or communicable.

National Conference Is Called

By GAYLORD P. GODWIN

WASHINGTON (UPI)—Secretary of Agriculture Orville L. Freeman has called a national conference on land and people to meet here Jan. 15. The conference will consider needs and uses of national land and water resources.

This is the second conference called by Freeman this week. The other, on food and people, met here Jan. 10 to discuss "a crisis of abundance" in American production of food and fiber and uses of the abundance.

Both conferences are part of the Administration's plan to update the agricultural economy. Information gleaned at the conferences will be considered in the food and agriculture proposals to be offered to Congress this session.

Persons invited to the land and people conference include leaders in many fields—state and federal governments, conservation (soil, water and forestry), recreation and sports, civic and religious groups, education, farm organizations, rural and urban planning, cooperative organizations, and credit specialists.

"The need to adjust the use of our land to our food and fiber needs—for now and in the future—is a vital matter that poses problems for rural and urban people alike," Freeman said.

The latest coffee estimate by the Foreign Agricultural Service places the 1961-62 coffee crop at 74.7 million bags with 60.8 million bags exportable. A bag of coffee net into commercial trade off the tree weighs 132.276 pounds.

The estimated production would be second only to the record output of 1959-60. The estimated output for South America, the leading coffee producing area, was 48.3 million bags, with 39.9 million bags exportable.

World tobacco production in 1961 was estimated at 8,607,000,000 pounds, somewhat below the 8,858,000,000 pounds in 1960 and about 2 per cent above the 8,458,000,000 pounds in 1959.

Major production increases in 1961 were in the United States, India, Greece, Mexico and Brazil.

Mrs. John Workman Hostess For North Murray Homemakers

Mrs. John Workman, president, presided at the meeting of the North Murray Homemakers Club held in her home on Miller Avenue on Friday afternoon at 1:30 o'clock.

The devotional reading by Mrs. B. J. Hoffman was from John 11:24-26 and the thought for the day was "Read it to be wise, believe it to be safe, and practice it to be holy." Mrs. Charles Crawford led in prayer.

The major project lesson on the theme, "A Plan For Spending, Saving, and Sharing" was presented by Mrs. Commodore Jones who gave a very interesting lesson using posters, skits, etc., and created much interest.

Mrs. Crawford gave the citizenship lesson on Family Fallout Shelters.

Refreshments were served by the hostess to eleven members and visitors. Mrs. Jim Watson and Mrs. Carl King, with the latter joining the club. Mrs. Esco Gunter, 1688 Farmer Avenue, will be hostess for the next meeting to be held on Friday, February 9, at 1:30 p.m.

Town and Country Club Has Meet At The Johnson Home

Mrs. James Johnson opened her home on Fairlane Drive for the January meeting of the Town and Country Homemakers Club.

The major project lesson on "A Plan for Spending, Saving, and Sharing" was very ably presented by Mrs. A. G. Wilson. The minor lesson on "Civil Defense" was given by Mrs. Joe Sims.

Mrs. James Rogers gave the devotion. The roll call and minutes were ready by the secretary, Mrs. Z. C. Enix.

Refreshments were served by the hostess, Mrs. Johnson and Mrs. John Cavitt, to those present.

Mrs. R. L. Cooper Opens Home For Pottertown Meet

Mrs. R. L. Cooper opened her home on the Hazel Highway for the meeting of the Pottertown Homemakers Club held on Wednesday afternoon, January 10, at one o'clock.

The president, Mrs. Rozella Outland, presided at the business meeting. The reading of the minutes and the treasurer's report were given by Mrs. Jo Roberts.

Mrs. W. A. Ladd presented a very interesting lesson on "A Plan for Spending, Saving, and Sharing." A money management skit was presented by members of the club.

The hostess served refreshments to the following members: Mesdames Rozella Outland, Pearl Bottrott, Mary Brown Elkins, June Ladd, Jo Roberts, Robbie Witherspoon, and Madeline Parker.

The club will have its February meeting with Mrs. Rozella Outland.

PERSONALS

Mrs. and Mrs. Charles Tolley and children, Wynn and Karl, of Dixon, Ky., were the weekend guests of his parents, Mr. and Mrs. Bryan Tolley.

Mr. and Mrs. William E. Turner of Owensboro were guests of her parents, Mr. and Mrs. Preston Boyd. Mrs. Boyd underwent surgery at the Murray Hospital recently.

Stitch & Chatter Club Has Meeting

Mrs. Bryan Tolley entertained the members of the "Stitch and Chatter" Club at her home on West Main Street on Thursday afternoon at 2:30 o'clock.

A social hour was held with refreshments being served by Mrs. Tolley to Mesdames Noel Melugin, Graves Hendon, Tommy Lavender, Bob McCusiston, Charles Mercer, C. O. Bundurant, Charlie Hale, and Hugh Wilson.

Blankenship Circle Meets At Church

South Pleasant Grove Methodist Church met Thursday, January 11, for its regular meeting.

A discussion of the project underway at the present and future endeavors such as the library of South Pleasant Grove. An election for a member to the office of publicity chairman was held.

Mrs. Jackie Cooper was accepted as a new member. Refreshments were served to ten members of the circle by Misses Jean and Joan Cooper.

Billington-Lind Wedding Vows Read In Church Ceremony

Miss Carolyn Billington, daughter of Mr. and Mrs. Rex Billington of Murray, became the bride of Ronny Lind, son of Mr. and Mrs. Vinson Lind of Louisville, on Saturday, January 6.

Rev. J. Bynum read the wedding vows at the Martins Chapel Methodist Church. Records of the traditional wedding marches were used for the processional and the recessional.

The bride wore a beautiful wedding dress of white satin brocade with black accessories, and a corsage of orchids. Her jewelry was a strand of pearls and pearl earrings.

Mrs. Buddy Adams of Louisville was the bride's only attendant. She wore a wool beige dress with black accessories and a corsage of white carnations.

The best man for Mr. Lind was

Buddy Adams of Louisville.

Mrs. Billington chose to wear for her daughter's wedding a blue floral jersey dress with black accessories. Mrs. Lind, mother of the groom, was attired in a grey wool suit with black accessories.

Following the ceremony Mr. and Mrs. Billington entertained relatives and close friends with a reception at their home.

The beautifully appointed bride's table was overlaid with a white linen cloth and centered with pink tapers in crystal holders.

Mr. and Mrs. Lind are now at home in Louisville. He is a graduate of Shawnee High School and attended Murray State College.

Out-of-town guests included Mr. and Mrs. Frank Jarboe and daughter, Joyce, Misses Evelyn and Josephine Dondie, Douglas Lind, Mr. and Mrs. Vinson Lind, all of Louisville.

Penny Homemakers Meet In Home Of Mrs. Alton Cole

The home of Mrs. Alton Cole was the scene of the meeting of the Penny Homemakers Club held on Monday morning at ten o'clock.

Mrs. Leota Norsworthy and Mrs. Brooks Moody presented a most interesting and informative lesson on the subject, "A Plan For Spending, Saving, and Sharing," using posters and other illustrative material.

A Home Management skit was presented by the two leaders, assisted by Mrs. Jack Norsworthy, Mrs. J. B. Burkeen, and Mrs. Thomas Jones.

Mrs. John E. Waldrop gave the devotion from John 11:24-26 and the thought for the day followed by prayer by Mrs. Elmo Boyd. Mrs. Cole gave the citizenship lesson on civil defense.

The recreational period was

conducted by Mrs. Fernon Moody. A delicious potluck lunch was served to fifteen members and five visitors, Mrs. Hugh Waldrop, Mrs. Lila Drinkard, Mrs. Rose, Mrs. Orfield Byrd, and Mrs. Elizabeth Bright.

The next meeting will be held at the home of Mrs. Jack Norsworthy with Mrs. Thomas Jones as cohostess on Monday, February 19, at 10 a.m.

The CENTENNIAL SCRAPBOOK

The War for the Union 1861-65 in Pictures

No. 111 Basic artillery piece of the land forces on both sides was the "Napoleon," a smooth-bore, muzzle-loading 12-pounder howitzer.

"Rifled" cannon played a secondary role in field artillery operations, and their use diminished further as the war progressed. The principal rifled piece was the Ordnance gun (3-inch). There were eight other standard types of field artillery and a dozen additional types of field rifles. Lieut. Col. Mark M. Boatner III particularizes.

The smooth-bore Napoleon type, adopted from the French, was in common use by the U.S. Artillery before the war. Consequently, a number of these cannon were obtained by the Rebels in seizures of Federal fortifications and arsenals in the Southern and border states early in 1861.

Meat were made for the government in commercial foundries—Alger of Boston and Ames of Chicopee—to War Department specifications. The commanding general appointed by Lincoln in the autumn of 1861, George McClellan, and the quartermaster general, Montgomery C. Meigs, an old field artilleryman, decided that the Napoleon was and would be the most useful cannon, and contracts were let accordingly. Hence two-thirds of the field artillery provided the army were the light twelve-pounders.

Napoleons loaded with heavy charges of canister proved terribly effective in breaking up or turning back infantry or cavalry.

The 3-inch Ordnance gun, sometimes called the Rodman rifle, was developed by the U.S. Ordnance Department to replace 3-inch Parrott guns (the invention of R. P. Parrott) that had proved ineffective in Union hands. Larger Parrott guns, in which structural defects were corrected, were more effective. The Confederates also came into possession of these. Thus there were battles in which both Union and Rebel gunners fired away at each other with Napoleons and Parrotts.

CARD OF THANKS

We wish to express our heartfelt thanks and appreciation to all our many friends and neighbors who were so kind and sympathetic during the recent illness and death of our beloved son Bobby Joe. Especially do we wish to thank Rev. Layne Shanklin, Bro. Ernie Mathis and to his uncle Rev. Otis Jones, to Dr. Hugh Houston, to doctors and nurses of Vanderbilt Hospital. To the donors of flowers and food. To the quartet for their beautiful music and to the Linn Funeral Home for their kind and efficient service. May God bless each of you in our prayer. Mr. & Mrs. Euell Jones

BRIGHT STAR

HOLLYWOOD (UPI) — Nancy Kovac, now in Italy starring in the Columbia release "Jason and the Golden Fleece," entered the University of Michigan at the age of 15.

LIFELIKE—Look at the mammoth portrait of Indonesian President Agnew Sukarno, and then look down at the right where he stands on a platform making a speech, and you can see the portrait is lifelike. The scene is Jakarta, where he is whipping up frenzy for his New Guinea takeover.

A BIT FROM THE BIBLE

By GEORGE M. LANDIS

JUDAS THE TRAITOR

"But Jesus said unto him, Judas, betrayest thou the Son of man with a kiss" (Luke 22:48). Many characters move across the stage of activity in the Holy Scriptures. Some are heroes and heroines, admired by all who read about them; some are villains, hated and despised by all. Some of these lives appear first in dark surroundings and then move out into the bright light of God's presence and will the lives of others may be brilliant in the morning hours and then close.

with out the beauties of a sunset, but instead terminate in the fury of a breaking storm. Some of these lives are an inspiration to us; others are a solemn warning. Some are worthy of emulation; others are carefully to be shunned.

We are considering a man whose name is a synonym for treachery, a name despised by both sinner and saint. No parent would ever consider giving the name of Judas to a son.

The sin of Judas was deliberately designed and not the result of such temptation which swept him off of his feet. He carefully planned it. It was the result of unbelief, of lack of faith in the blessed One with whom he had companionship for three years, whose mighty works he had seen and whose wonderful words he had heard. It was also the result of covetousness, greed for gain.

placed a price tag on the worthless act of Mary when she anointed the Lord's feet, saying: "Why was not this ointment sold for three hundred pence and given to the poor?" A few days later he put a price tag on the price-less Son of God, thirty pieces of silver, the price of a slave. Judas' sin is particularly revolting because of the method he employed. A traitor is always despised but Judas especially so because he used a kiss, the symbol of love, with which to betray the One who in love had come to lay down His life for sinners. God forbid that any reader should sell the Savior for a price.

VERSATILE

HOLLYWOOD (UPI) — Versatile James Darren has followed up his great performance in Carl Foreman's "The Guns Of Navarone" with a hit record for Columbia, "Goodbye Cruel World."

THE GREEN STONE
A suspense thriller by
SUZANNE BLANC

From the novel published by Harper & Row, New York, N.Y.
By Suzanne Blanc. Distributed by King Features Syndicate.

CHAPTER 22

SEÑOR AGUINALDO looked at Luis Pérez's watch, held it to his ear, examined the works with a jeweler's glass, then said, "Two thousand pesos, that's all I can give you."

Luis reached for his watch. "It's gold," he protested. "Solid gold it's worth more."

"My friend, believe me, no one will pay more. Just yesterday I bought one like it for eight hundred pesos, only the band is got as nice as this one. Where is that watch, Anna-maria? Show it to the gentleman."

His wife scrambled through the debris on the counter, trying to find the watch.

"You must excuse us, Señor," Aguinaldo said. "The place is in an uproar this morning."

"It looks as if it's been torn apart."

"It was," Aguinaldo's frown deepened and he lowered his voice although there was no one else in the store except his wife and the silvermith. "Lieutenant Jimenez was here just now—from the police. He's after a stone, an emerald. It belonged to a murdered tourist and the lieutenant says it's somewhere in San Luis. He threatened me. Imagine! He said he knew that I was a receiver of stolen goods!"

His volume increased with his indignation, but underneath there was a contagion of fear. "Strangely enough," Luis was only lightly infected by the misadventure of the lieutenant, as his determination to get the jewel had hardened. Luis had also hardened. Although the word "police" would never lose its power to alarm him, it had lost the power to terrorize him. He was merely wary, weighing what was being said to see if in any way, it could endanger him.

Aguinaldo was talking again, loudly, as if it were important to convince them of his innocence. "I've always been an honest businessman," he told him. But you know the police—they believe no one. This is the second time they've been here this week. If you know anything about the jewel and don't tell us, the lieutenant said, 'I'll pull you in as an accessory to the murder.'"

"I knew anything, why wouldn't I tell them? They don't have to do this," he ended morosely. "Well, what can you do?"

Come, come, Anna-maria, did you find the watch?"

Without thinking Luis had slipped his own watch back onto his wrist. As the shopkeeper continued to talk it became increasingly clear to him that he was under suspicion and it occurred to Luis that merely being there

could draw him into the orbit of that suspicion. He wanted to get away, into the hot, bright freedom of the streets.

But Aguinaldo would not let go. "What is the matter, Señor?" he asked. "Just a minute. Don't run off. Maybe I can manage a little more. You've been a good customer. Twenty-two hundred pesos for the watch."

Luis hesitated. Twenty-two hundred pesos. He would need at least that much. Obviously, with the police searching everywhere in San Luis, the jewel could not be sold here. He would have to go to Guadalupe where he could stay with his family in the rooms behind the leather shop until he could find a buyer for the emerald. But, though he needed the money, was it really safe to leave anything behind that could link him with Aguinaldo?

"Twenty-three hundred pesos," Aguinaldo said firmly. "That's positively my last offer."

Luis' new courage asserted itself. Without speaking, he slipped off the watch and handed it over, receiving in return a sheaf of pesos. You can't live dangerously, he assured himself, without taking risks, and, secretly pleased with his own temerity, he shook the shopkeeper's hand.

Now that he had money again, Luis realized that he was ravenously hungry. He stopped at a restaurant, ate until he was comfortably full and drank cup after cup of hot, bitter coffee.

He fumbled in his pocket for a cigarette, drew it out, crumpled package and for no apparent reason he pictured the little señora opening the tobacco pouch, emptying the contents and finding the emerald.

"How could I have been so stupid?" Luis was shaken out of his complacency. "Of course she'll find it. She may already have found it. She'll show it to someone, a jeweler perhaps. The police will be called."

He could hear her explaining, "I bought it from the guide. I had no idea of its value."

The words in the shop took on a new meaning. The police had threatened Aguinaldo with being an "accessory after the murder." Luis' slight decide, was the actual murder.

If the little señora found the stone, she held his freedom, perhaps his very life in her hands. There was a chance, an outside chance that she didn't know any more. But if she can't take that chance, Luis thought grimly, facing, for the first time, the full, dangerous

of his situation.

Every step he took from that moment forward was motivated by a twin need to protect himself and to recover his property. If he thought of the little señora at all it was without compassion, coldly, as an obstacle to his plans, a threat to his existence. With desperate boldness he plunged along the path he had chosen, undeterred by human considerations.

The mayor of San Luis had been in office for many years and, with each succeeding term, his power, of wealth increased until there was scarcely a decision that was made without his sanction.

The most powerful men in San Luis, each in his own sphere, all deferred to him. Once each week they met at his home to offer recommendations, but their suggestions were just a formality. It was the mayor who decided everything.

Today he was in a grim mood. He paced the width of his study glowering at all his lieutenants, but the brunt of his displeasure was focused on the commandant of police.

"You men are a disgrace to my administration," the mayor began immediately. "The Communists are running wild. Last night, right here in my own neighborhood, a North American guest of my friend Ramon Morales had the tires of her car slashed."

The commandant, who had come directly to the meeting without stopping at headquarters, was taken completely unawares. "I knew nothing about it," he stammered.

"It's your business to know. Why should I, the mayor, know the details of this disgrace and the commandant of police be ignorant of it?"

It concerned a tourist, he said. The commandant had found a hole to squirm through. "Tourist affairs are handled by Inspector Menendez. He's sent directly from the capital."

"I don't care who handles his affairs, or where he comes from," the mayor said, but he was a squint-eyed, self-centered man. "We don't want any more tourists from the capital. We want tourists from the provinces. We want tourists who will stay in our hotels, eat in our restaurants, and give us money. Within twenty-four hours you will have a detailed report," the commandant promised.

Sergeant Roberto has reason to question the judgment of Inspector Menendez. Continue the story tomorrow.
